

YEAR-ROUND PERFECTION, EVERY DAY

365 Turf | 2026 Product Collection

Premium Artificial Grass Solutions for the British Columbia

1. Pro Lite | 1.38"

The "Performance-First" Choice

Best for: High-traffic areas, pet runs, and clean curb appeal.

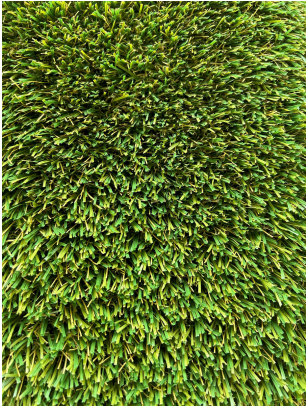

Technical Specs	Details
Pile Height	1.38" (Manicured look)
Face Weight	56 oz
Total Weight	86 oz
Yarn Shape	S-Shape (Max Resilience)

Description: The Pro Lite is the workhorse of our collection. Designed with an advanced **S-Shape yarn**, the blades are engineered to stand up to heavy foot traffic and active pets. The shorter pile height makes cleanup effortless, while the matte finish ensures your lawn looks like perfectly mown natural grass—never plastic.

2. Pro Earth | 1.75"

The "Balanced Luxury" Choice

Best for: Large family backyards and multi-use landscapes.

Technical Specs	Details
Pile Height	1.75" (Lush & Tall)
Face Weight	65.5 oz
Total Weight	95.5 oz
Yarn Shape	3D W-Plus Ripple

Description: Pro Earth hits the "sweet spot" between luxury and value. It features the **3D W-Plus Ripple** yarn, which provides extra structural reinforcement at the core of the blade. This allows for a tall, lush 1.75" profile that stays upright. Its ripple texture diffuses sunlight, keeping the surface cooler during those hot Metro Vancouver July afternoons.

3. Pro Natural | 1.75"

The "Showstopper" Luxury Choice

Best for: Barefoot comfort, premium backyards, and maximum realism.

Technical Specs	Details
Pile Height	1.75" (Deep & Plush)
Face Weight	72 oz (Ultra-Dense)
Total Weight	102 oz
Yarn Shape	3D W-Ripple (Cooling)

Description: Our most luxurious turf. The Pro Natural is built for homeowners who want the softest, most realistic lawn possible. With a massive **72 oz face weight**, it feels incredibly dense and "cloud-like" underfoot. The **W-Ripple** technology is the gold standard for cooling and light-diffusion, making this turf almost indistinguishable from a high-end natural lawn.

Which 365 Turf is Right for You?

If your priority is...	We recommend...
Easy Cleanup / Pets/	Pro Lite
Best Value for Large Areas	Pro Earth
Barefoot Softness / Realism	Pro Natural

The 365 turf installation Difference

Every 365 Turf project includes our signature multi-layer drainage base and professional installation. We guarantee correct **grain direction** and invisible seams on every property.
